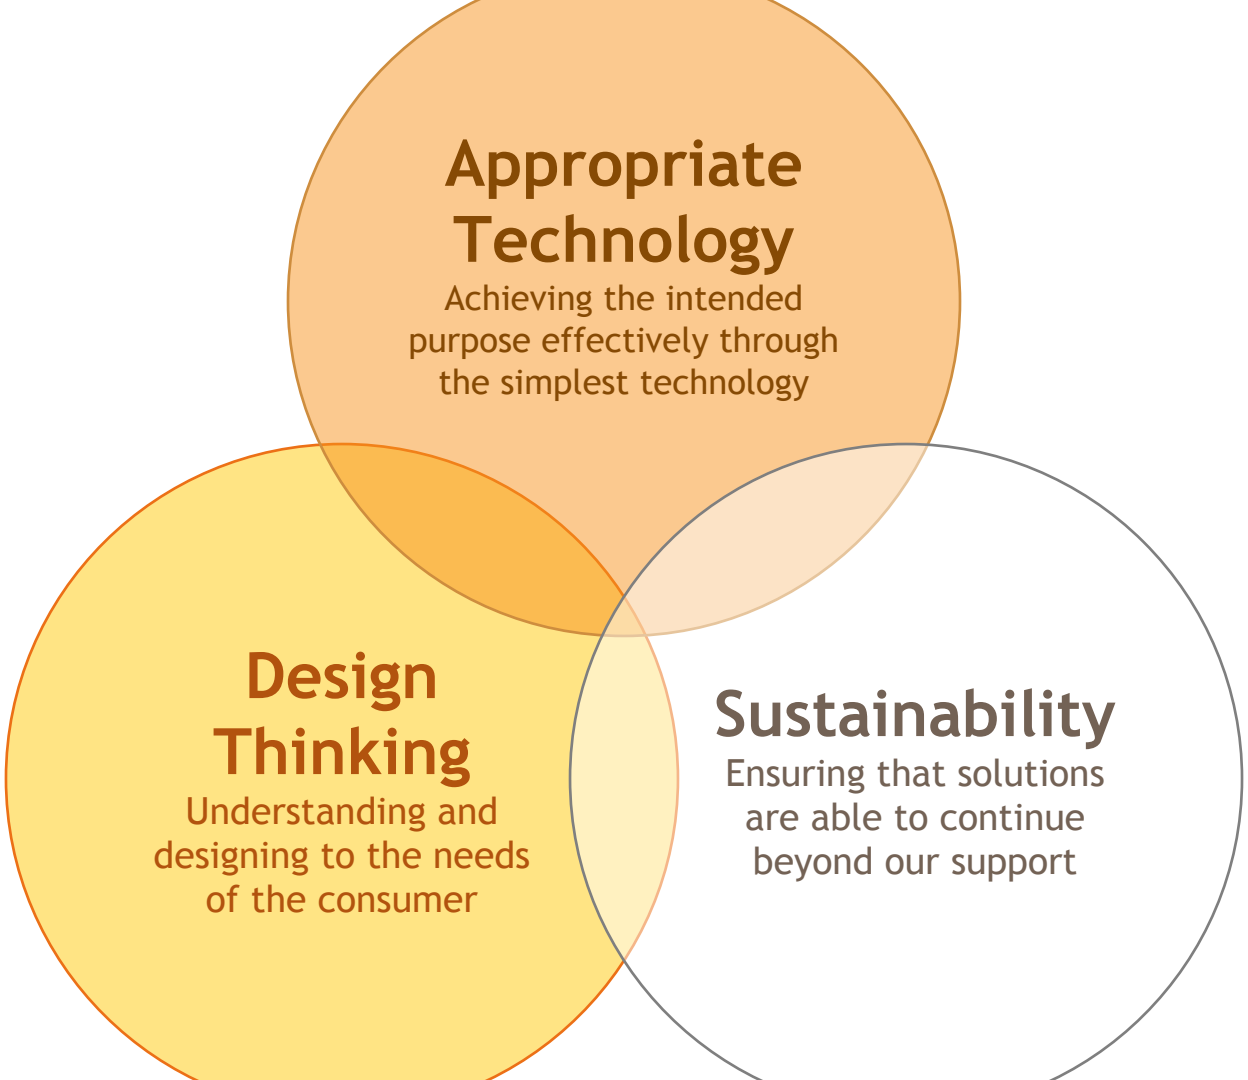
GOOD



Appropriate Technology
Achieving the intended purpose effectively through the simplest technology
Design Thinking
Understanding and designing to the needs of the consumer
Sustainability
Ensuring that solutions are able to continue beyond our support

Singapore-based non-profit organisation
that seeks to empower disadvantaged communities
through humanitarian engineering.

We envision a world where everyone is able to
lead a life of dignity and opportunity,
no matter their circumstances.

Projects	• Assistive technology for PWDs • Appropriate technology for BoP
Workshops	• Hack-a-Toy • Makey Makey
Outreach	• Advocacy talks and workshops • Public exhibitions
